

Nitrile Exam Gloves

The HCS line of Nitrile Exam Gloves is tailored to meet a range of needs without compromising on protection or comfort. Certified safe for handling select chemotherapy drugs, including fentanyl, HCS Nitrile Exam gloves ensure peace of mind in demanding environments.

Nitrile 3.0 sets a new standard by combining superior barrier protection with enhanced tactile sensitivity. With unsurpassed tensile strength and a feel akin to wearing no glove at all, it exceeds market standards

For individuals with sensitive skin, Nitrile 3.2 offers FDA- approved low dermatitis potential, guarding against hypersensitivity reactions. With excellent tensile strength and a soft, form-fitting feel, it's the ideal choice for those prone to glove-induced allergies.

When additional protection is paramount, turn to Nitrile 3.7 Extended Cuff. With FDA approval for low dermatitis and zero accelerator chemicals, it provides enhanced grip with textured fingertips and extended coverage with 12" cuffs.

3.0 & 3.2 Glove Thickness
Cuff - 2mil
Palm - 2.75mil
Finger - 4mil

3.7 Glove Thickness
Cuff - 2.75mil
Palm - 3.15mil
Finger - 5mil
