

Patient Repositioning Sheet

Our HCS Patient Repositioning Slide Sheets with handles are designed to assist caregivers in safely repositioning, transferring, and adjusting bedridden patients with minimal effort. It is ideal for hospitals, nursing homes, and home healthcare environments, enhancing patient comfort while reducing caregiver strain. Our transfer sheets support lateral transfers, full body or partial turning and positioning.

Product Features:

- **Single patient use; re-usable**
- **For horizontal patient repositioning only**
- **Double-sided Material:**
 - Top Layer:** Low-friction, soft, and breathable fabric (e.g., cotton/polyester blend) to ensure comfort and reduce skin irritation
 - Bottom Layer:** Anti-slip or gripping surface to prevent sheet slippage on the bed.
- **A variety of sizes and weight capacity**
- **6 load-bearing handles** - reinforced and strategically placed for even weight distribution; double-stitched, nylon for added durability
- **Easy to maintain** - machine washable (cold or warm water washing is best, natural air drying or tumble dry) and wipeable
- **Moisture-resistant; not waterproof**
- **Can be used with an air mattress**
- **Color:** Navy and Gray
- **Fire Retardant** - meets ASTM or ISO fire-retardant standards for healthcare fabrics.
- **Usage Instructions** - Clear, printed guidelines on proper use and repositioning techniques provided with every sheet
