

# Repositioning Wedges

Our HCS Repositioning Wedges are designed with a strong focus on pressure ulcer prevention, are a durable and stable solution ideal for fixed patient positioning. It is primarily used for supporting various body positions to relieve pressure in vulnerable areas like the hips, sacrum, and heels. Beneficial for patients with limited mobility, at risk of pressure sores, or requiring support during sleep or rest. Appropriate to use in hospitals, nursing homes, and home care settings.

## Product Features:

- **Contoured Design:** Provides ergonomic support and helps keep the body in a stable position.
- **Material:** High-density foam provides firm support and durability. The construction helps reduce pressure points, preventing bedsores by distributing pressure more evenly across the support surface.
- **Cover Material:** Vinyl; Anti-Microbial and Hypoallergenic Cover; Protects against allergens and bacterial buildup
- **Water-proof:** Makes cleaning easy and aids in infection control.
- **Single-Patient:** re-usable.
- **Grip bottom.**
- **2 size options:** 19x11x9 1/2in and 19x15x13in
- **30 degree angle for optimal positioning.**
- **1 handle per wedge** – makes it portable and eases the adjustment of the wedge(s) from underneath the patient.
- **Lightweight: 1-3 lbs depending on size**
- **Latex-free**
- **Sold in pairs of 2.**
