Dear Valued Partner:

We have made changes to the Midmark EDI database. The changes include new and discontinued products. The attached EDI file includes the following product updates. There are two tabs in this file:

1. The first tab titled **"New Products"** contains newly added part numbers and pricing for the **Midmark® 631 Procedure Chair** available May 6, 2025.
2. The second tab titled **"Discontinued Products"** contains one discontinued part number, effective November 6, 2025.

Please review your product database and incorporate these changes. Making these changes will facilitate the order process tremendously. If you have questions, please contact Corporate Accounts at:
corpaccounts@midmark.com
