March 15, 2024

Dear Valued Customer,

At Cardinal Health, we continually evaluate our product portfolios to ensure that we offer clinically relevant and cost-effective products that help you serve your patients. As a part of this work, we're streamlining our Cardinal Health™ Brand portfolio, and discontinuing the products listed in Table 1.

Refer to Table 1 (beginning on page 2) for product details, estimated inventory depletion dates, and suggested clinically equivalent replacements. Please note that we have included materials without demand, for informational purposes.

The impacted Cardinal Health product numbers are available for ordering while supplies last. When inventory is completely depleted, you will need to transition your ordering to a Cardinal Health recommended substitute or alternate supplier.

For Cardinal Health alternatives, please work with your local Cardinal Health sales representative on a transition plan or call Customer Service at 800-964-5227 if you need assistance or have additional questions. For alternate suppliers, please work directly with the alternate supplier or your distributor partner to transition your ordering accordingly. If Cardinal Health is your distributor partner, please contact your distribution sales representative or Cardinal Health Distribution Customer Service at 800-635-6021.

Thank you for your continued business,

Jackie Stegemann

Vice President
U.S. Product Marketing, Medical Products
