

Quilted Stretch Briefs featuring BreatheEasy™ Technology

Protect their skin and dignity

Cardinal Health™ BreatheEasy™ Technology helps maintain the skin's natural moisture balance, to promote skin health.

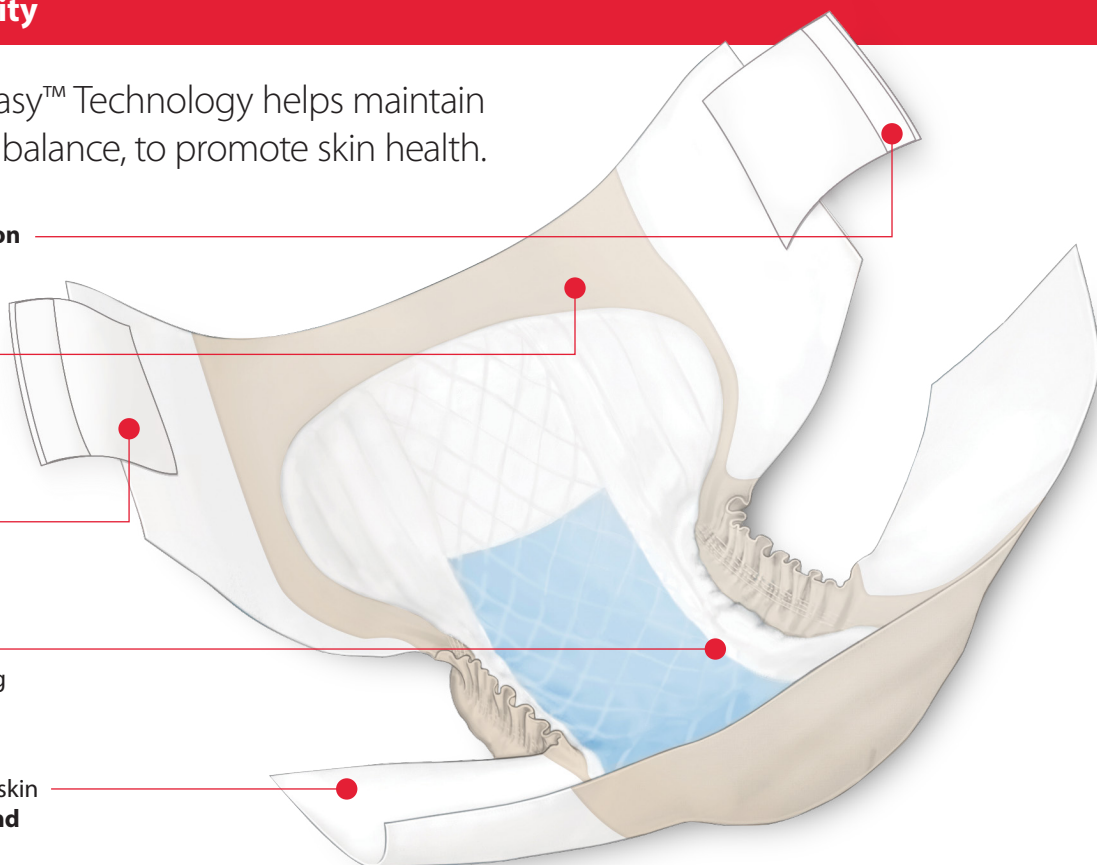

Single fastening tab for **easy application**

Soft, cloth-like backsheet for a **quiet and discreet solution** from application to disposal

Stretch side panels feature flexible material for a **secure fit**

Dual-action core quickly locks in fluid and **neutralizes odors** while providing **improved absorbency***

Air-permeable side panels allow air-to-skin contact, helping keep skin **cool, dry and comfortable**

*compared to traditional quilted briefs

Our innovative line of truly breathable incontinence products offers added comfort by keeping skin cool. Feel confident that you are delivering a high standard of care while also protecting the dignity and quality of life of your patients or residents.

- Stretch side panels mean fewer sizes are needed than with traditional quilted briefs
- BreatheEasy™ Technology makes briefs breathable in all three zones, providing a more balanced microclimate for optimal skin well-being
- Fast pH neutralization helps reduce the risk of skin breakdown
- Cardinal Health™ WINGS™ Plus, Ultra and Overnight products with BreatheEasy™ Technology meet or exceed National Association for Continence (NAFC) guidelines.

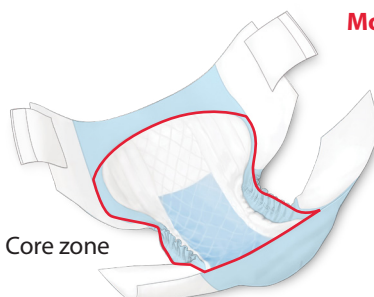

Three zones of breathability

Air-permeable

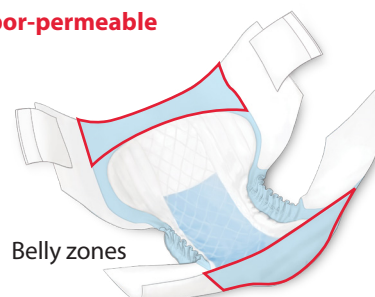

Wing zones

Moisture vapor-permeable

Core zone

Belly zones

Multiple sizes and absorbencies available

Helps ensure comfort, leakage protection and dignity

For optimal skin well-being, try our adult stretch briefs in combination with our personal cleansing cloths. The gentle, no-rinse formulation is pH-balanced and infused with aloe to help moisturize the skin.

For skin. For dignity. For life.
