Inventory Update: 3M Medical N95 (1870+ Standard Pack, 1870+ Bulk Pack, 1860, 1860S, 1804, 1804S)

To our Valued Healthcare Customers:

We are continuing to experience delayed lead times following continued increased demand due to COVID, Flu and RSV season. The demand has maintained a very high level over the past few months. We have increased our skilled labor employed at our United States manufacturing locations in efforts to outpace the incoming orders and have been seeing improvement in weekly output from our production facilities.

We are continuing to work with 3M customers and medical facilities to help meet increased demand.

We would like to provide you with an update on our current inventory status and future outlook through the COVID, Flu and RSV season.
