RE: Supply situation of 3M™ Cavilon™

Dear Valued 3M Partner,

We are pleased to share the following news concerning the supply of **3M™ Cavilon™ Skin Care** products:

- **3M™ Cavilon™ Advanced Skin Protectant** (Catalogs 5050, 5051) continues to be off backorder with a healthy supply pipeline.
- **3M™ Cavilon™ No Sting Barrier Film, 3343K** continues to be the only catalog ID on manual allocation. This product will continue to be constrained until late September this year. We expect to be meeting demand with periodic shipments until full recovery.
- **3344 and 3346:** Immaterial constraint is expected as we will continue to marginally dip in and out -of-backorder status until full recovery (expected late April).
- The following products are currently in backorder status. We will continue to get product supplied but not enough to meet all customer demand. The date displayed below shows when we expect to meet all customer orders.

Category	Product	Description	Target Full Recovery Date	Recommended 3M substitute
No Sting Barrier Film	3343	1 ml wand (100/Case)	Late June 2024	None
	3343K*	1 ml wand KIT (200/Case)	Late September 2024	3342K Cavilon NSBF 0.75 ml wipe
	3344	1 ml Wipe (100/Case)	Late March/April 2024	3345 Cavilon NSBF 3mL wand
	3346	28 ml Bottle (12/Case)	Late March/April 2024	3345 Cavilon NSBF 3mL wand
Durable Barrier Cream	3353	2 g sachet (240/Case)	Late April 2024	3354 Cavilon Durable Barrier Cream 1oz tube

**Product on manual allocation.*
