**Subject:** Abbott Inventory Update: Nutrition Products

Abbott continuously reviews our inventory to provide customers with the most up-to-date and accurate product availability information as possible. The table below lists products that are currently low in inventory.

For items in low inventory, the table below provides suggested alternatives to meet the nutritional needs of your patients. Healthcare professionals should determine the best alternative product and transition plan for patients.

| Pediatric Institutional Item          | Item # | Est.<br>Recovery<br>Date | Potential Alternative Options     | Item # |
|---------------------------------------|--------|--------------------------|-----------------------------------|--------|
| Pediasure Vanilla w/ Fiber 8oz Bottle | 67531  | Mid-February             | PediaSure Vanilla w/Fiber 8oz Can | 67529  |
| Pediasure Vanilla 8oz Bottle          | 67533  | Mid-February             | Pediasure Vanilla 8oz Can         | 67522  |

**NOTE:** We are not producing EleCare Jr Chocolate (#66273) or EleCare Jr Banana (#66275) currently.

*The use of tube-feeding products must be determined by the healthcare professional. When patients need to change to a new formula, please work with that patient's healthcare professional to determine the best alternative product and transition plan.*

For questions regarding your orders or for other information about Abbott's nutrition products, please contact our Customer Service team at 1-800-551-5838. If ordering through a distributor, work directly with your distributor representative on alternative product availability.

Sincerely,

A handwritten signature in black ink that reads 'Scott Calus'.
