

SKU Update – ACTION REQUIRED

RE: Capnoflex & Capnostat Sku Change

August 15, 2024

Dear Valued Customer,

Due to regulatory requirements, we are updating a portion of the skus within the Capnoflex and Capnostat portfolios. To keep things as simple as possible, we are adding a VY to the end of each original sku number. **This is only a sku number change, the product remains the same.** Please see affected skus on **ATTACHMENT A**.

We prompt you to carefully review this information and to please direct this notification to your procurement team to update the skus immediately.

Starting Sept 1st, 2024, please start placing orders under the new sku number. Until then, orders for the current skus can be placed as usual. In the event we run out of inventory of the current sku number prior to Sept 1, someone from our customer service team will reach out to help you transition to the new sku number.

We value your relationship, and our intent is to mitigate the disruption this may cause. Our Sales Representatives are available to help answer any questions. You can also reach out to our Customer Service Team at info@myAirLife.com or 800.433.2797.

Sincerely,

Megan Smothers

Principal Product Manager

O2 Delivery and ETCO2
