

Product Discontinuation Notice – ACTION REQUIRED

RE: Notification Regarding the Discontinuation of Westmed ETCO2 Cannulas and Gas Sample Line

September 6, 2024

Dear Valued Customer,

As part of our business process, AirLife routinely evaluates its product portfolio and occasionally discontinues the manufacturing and distribution of certain products and materials. AirLife acknowledges the obligation to promptly inform our customers of the intent to exit products to enable our customers the ability to prepare for alternatives and or assist in their product portfolio renewal process. This letter serves as a formal notification that AirLife has discontinued production of the product(s) found on ATTACHMENT A.

We prompt you to carefully review this information and to please direct this notice to your procurement team or item discontinuation team to discontinue the existing items and to facilitate the transition to the suggested replacements and to place your company's final purchases for available discontinued products

Recommended replacements are available and offer either a direct, like-for-like alternative, or a functional replacement. If the recommendation does not fit your exact need, please reach out to your dedicated sales manager and they can help you find a better alternative.

We value your relationship, and our intent is to provide ample notice to mitigate the inconvenience and impact this may cause. Our Sales Representatives are available to help you with the recommended replacement options and to answer any questions. You can also reach out to our Customer Service Team at info@myAirLife.com or 800.433.2797.

Sincerely,

Megan Smothers

Principal Product Manager
