**RE: Supply Interruption on 1000 mL Nutrilipid® 20% I.V. Fat Emulsion**

Dear Valued B. Braun Customer,

As part of B. Braun's commitment to maintaining transparent communication with our customers, we need to inform you that we are anticipating a backorder on **1000 mL Nutrilipid 20% I.V. Fat Emulsion** due to manufacturing delay. We are working to correct this backorder and restore safety stocks as soon as possible.

Please refer to the affected product code below:

| Product Code | NDC          | Product Description              | Units/Case |
|--------------|--------------|----------------------------------|------------|
| S4600        | 0264-4460-00 | Nutrilipid 20% I.V. Fat Emulsion | 8          |

We currently have an allocation for 1000 mL Nutrilipid 20% at 40% historic usage (May-July 2024). We anticipate having backorders on this product for the next few months. We will continue to accept orders during this time and will ship new product as it becomes available.

In the interim, if your needs for this product exceed what we can supply, consider sourcing additional product from an alternative supplier such as Baxter or Fresenius Kabi.

- [www.freseniuskabinutrition.com](http://www.freseniuskabinutrition.com)

We apologize for any inconvenience and are working diligently to resolve this backorder as quickly as possible. For more information or questions about substitute products, please contact your local B. Braun sales representative or our Medical Affairs team at 1-800-854-6851 or email [medinfo.us@bbraunusa.com](mailto:medinfo.us@bbraunusa.com).

Sincerely,

Allison Carroll, RD, LDN  
Product Manager, Clinical Nutrition
