Re: Product Discontinuation

Dear Valued Partner:

This letter is to inform you that BD has stopped manufacturing select BD Vacutainer® Push Button Blood Collection Sets. Please see below chart for specific Ref. #s and suggested alternative options.

This discontinuation is prompted by BD's commitment to providing the highest level of service to ensure supply reliability to our customers. Due to higher-than-expected demand we are needing to optimize our manufacturing processes to fulfill on our commitment.

We will be contacting customers who currently use these products and providing them with the alternative product options (see below).

We ask that you please manage your inventory carefully, as demand for these discontinued products will decline and the request for alternative products options will increase.

The standard BD return goods policy will be strongly adhered to.

Recommended product cross reference:

Current Product		Alternative Options*	
Ref. #	Description	Ref. #	Description
367341	25G 12" w/luer BD Vacutainer® Push Button Blood Coll Set	367363	25G 12" w/luer BD Vacutainer® UltraTouch™ Push Button Blood Coll Set
