Dear Valued Customer,

We are excited to inform you about recent architectural modifications that have significantly increased our capacity. As part of this enhancement, we kindly request you to transition from SKU 305766 to SKU 305712 - NEEDLE ECLIPSE 18 G X 1½”.

There are **no changes** to **form, fit or function** and no changes to **price/packaging dimensions, weight or count** for the BD Eclipse™ Needles produced.

BD has partnered with your distributor to transition your usage to the new code to maintain supply continuity. Your distributor representative will advise when inventory is depleted for discontinued SKUs and is time for you to shift to the new code in your ordering system. The **new SKU# will be available effective 09/01/2025.**

Please make the necessary adjustments to your orders and inventory systems to reflect this change. We appreciate your cooperation and understanding as we strive to serve you better.

If you have any questions or need assistance with the transition, please do not hesitate to contact our customer support team.

Thank you for your continued support.
