Supply update for planned product discontinuation:

Dear BD Valued Customer,

We received notification from a third-party supplier of a **short-term raw material disruption impacting specific Alaris LVP Pump sets (2420-0500 and 2426-0500)**, which will result in short-term BO for these sets. The identified risk only impacts the 2420-0500 and 2426-0500 products.

These products were set for discontinuation by the end of the calendar year, refer to customer notification sent in July, (BD-35964NN dated July 10, 2024), with transition to analogous alternatives that do not contain DEHP as part of the material formulation (see tables below).

To ensure supply continuity, we are requesting immediate transition to the alternative products: 2420-0007 and 2426-0007. Early migration will help to mitigate much of the supply disruption; however, some BO on these sets may occur. BD expects the raw material issue to be resolved in early September and inventory positions to stabilize by September end/early October.

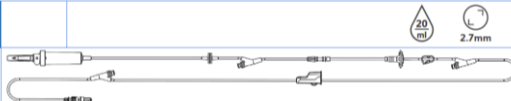

For further information:

Please contact your local BD sales associate as stated above or BD Customer Care at 1-844-823-5433 or visit www.bd.com/en-us/support.

Products with immediate migration:

Alaris LVP					
Discontinued catalog number	Product description	Alternate catalog number	Alternate product description	Difference between sets	Migration Date
2420-0500	AS LVP 20D DEHP 2SS CV	2420-0007	AS LVP 20D 2SS CV	Alternatives (ending in 0007) do not contain DEHP as part of the material formulation	Immediately
2426-0500	AS LVP 20D DEHP 3SS CV	2426-0007	AS LVP 20D 3SS CV		Immediately
