Dear Valued Customer,

Due to current supply issues with other clipper manufacturers and as a preventative measure, the BD Surgical Clippers are on a manual allocation. This has been done to ensure we can maximize product availability for all BD customers. At this time, BD Surgical Clipper Blade orders (4406, 4403A, and 4412A) will be allocated based on customers' historical monthly average ordering patterns for the past 6 months. The portion of any orders exceeding this historical monthly average will be canceled. During this time and until further notice, requests for the BD Surgical Clipper handle/charging adapter (5513E & 5514A) should be made through your local BD sales representative.

Product codes involved:

Item Code	Description
5513E	BD Surgical Clipper
5514A	BD Surgical Clipper Charging Adapter
4406	BD Surgical Clipper Blade General Use
4403A	BD SensiClip™ Surgical Clipper Blade
4412A	BD Neuro Surgical Clipper Blade

We apologize for this inconvenience and appreciate your patience as we work diligently to minimize any impact. Please contact BD customer service or a BD sales representative for the most up-to-date product information and order status.

Sincerely,

A handwritten signature in black ink that reads "Neha Potdar". The script is cursive and fluid.
