JOBST® COMPRIFORE ANNOUNCEMENT

Dear Valued Customer,

Essity is dedicated to the sustainable development, production, and delivery of value-added hygiene and health products and services. As we support you and your customers, we will continue to offer a diverse range of solutions to meet every need.

As part of the Global Sustainability initiatives, **JOBST® Comprifore (with latex)** has been discontinued. **JOBST® Comprifore (latex-free*)** is recommended as the preferred replacement and remains available.

- Comprifore® multi-layer compression bandaging system uses multiple layers to build to effective levels of compression. Designed to deliver sustained graduated compression for up to 7 days, with the use of short- and long-stretch layers
- Reduced risk of allergies with LF version (not made with natural rubber latex)
- Includes a Cutimed® Sorbact® Wound Contact Layer to reduce bioburden that may impede healing
