

4/22/25

Thank you for your continued patience as we recover from Hurricane Helene and improve our allocation processes. Effective today, we have removed allocations on the codes below but will not communicate to our mutual customers until next week, 4/29. This will allow you to place orders without cancellations due to allocation limits and have inventory either in stock or transit by next week. We kindly ask that you remove allocation for your end users next week as well.
