Subject: Supply update for ExactaMix EVA Bags, Inlets, & Valve Sets

Dear Valued Customer,

We would like to inform you of an important supply update related to our ExactaMix automated compounding disposables portfolio, which will be **effective on September 19, 2025**.

All Flex clear single-chamber & select Valmed clear single-chamber EVA bags are off allocation and now available for trade partner ordering

As part of our EVA bag supply recovery and set forth in Table 1 below, Baxter has now made Flex H938-coded clear single-chamber EVA bags available for distributor/wholesaler ordering. With this change, allocations are removed for both direct customers and distributors/wholesalers.

Direct customer and distributor/wholesaler allocations have also been removed for Valmed FBX-coded clear single-chamber EVA bags FBX1033BP, FBX1034BP, and FBX1036BP.

Table 1 | Clear single-chamber EVA bags off allocation and available for distributor/wholesaler ordering

Product Code	Clear EVA Bag Size	Units Per Case	Distributor/Wholesaler Reorder Numbers				
			Cardinal	McKesson Drug	McKesson Med Surg	Medline	Owens & Minor
H938737	250mL	50	4244802	2285963	884443	Contact trading partner	Contact trading partner

H938742	4000mL	50	4244901	2168680	1046944	Contact trading partner	Contact trading partner
H938743	5000mL	50	4244927	N/A	N/A	Contact trading partner	Contact trading partner
FBX1033BP	2000mL	80	5962584	2993582	1259746	BHLFBX1033BP	0706FBX1033BP
FBX1034BP	3000mL	80	5962592	2993608	1259747	BHLFBX1034BP	0706FBX1034BP
FBX1036BP	5000mL	50	N/A	2993624	1259749	BHLFBX1036BP	Setup in Process

**For any trading partners or reorder numbers not listed in Table 1 above, please reach out to your local distributor/wholesale representative for more information.*

As shown in Table 2 below, all other Valmed clear single-chamber EVA bags remain on allocation for direct customers and distributors/wholesalers. For these codes, customers retain their direct allocation through Baxter and can supplement their inventory through their distributor/wholesaler.

ExactaMix inlets & valve sets are off allocation

Direct customer and distributor/wholesaler allocations are removed for product codes H938174 (ExactaMix Inlet. Vented, High-Volume Inlet) and H938724 (ExactaMix 2400 Valve Set).

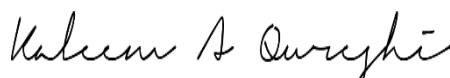

With this change, all ExactaMix automated compounding inlet and valve set codes are off allocation and available for direct customer and distributor/wholesaler ordering.

Table 3 | Allocation Status of ExactaMix Automated Compounding Inlet & Valve Set Codes

Product Code	Product Description	Allocation Status
H938173	ExactaMix Inlet. Non-Vented, High-Volume Inlet	Off Allocation
H938174	ExactaMix Inlet. Vented, High-Volume Inlet	Off Allocation
H938175	ExactaMix Inlet. Vented, Micro-Volume Inlet	Off Allocation
H938176	ExactaMix Inlet. Syringe Inlet	Off Allocation
H938751	ExactaMix Inlet. Micro-Volume Inlet with Large-Bore Spikes	Off Allocation
H938724	ExactaMix 2400 Valve Set	Off Allocation
H938792	ExactaMix 1200 Valve Set	Off Allocation

We understand the importance of supply continuity for your clinical care and are committed to transparently and proactively communicating any changes in supply with you. To ensure you have the information you need, please visit the [Supply Resources](#) page on our website and download our Supply Availability Report to access the latest information on product supply. Your local Baxter nutrition specialist is available to answer any further questions.

Sincerely,

Kaleem A Qureshi
