

BRODA[®]

Acute Care Seating Solutions

Comfort & Support Tailored
for Every Patient

BRODA®

Broda's full line of positioning and mobility wheelchairs have been improving lives for over 40 years. Our seating solutions provide the highest levels of comfort. Hospitals worldwide love how Broda wheelchairs are safe, durable, and easy to use.

When it comes to acute care, Broda has you covered. Designed for acute care and hospital settings the ACC Package combines enhanced infection control features with industry-leading functionality, making it the unrivaled solution for your next clinical application.

WHY BRODA FOR ACUTE CARE?

For over 40 years, Broda has been committed to providing wheelchairs that offer the best in comfort, safety, and durability. Our flexible seating solutions accommodate a wide variety of users while prioritizing safety for both staff and patients.

Pressure Injury Prevention

Pressure injuries cost the United States healthcare system up to \$11.9 billion dollars annually. A hospital-acquired pressure injury (HAPI) can increase that individual's care cost by \$20,000-\$151,000 per injury!¹ Broda's proprietary Comfort Tension Seating redistributes pressure to prevent these costly and painful wounds.

Easy Infection Control

According to the CDC, 1 in 31 acute care patients contract an infection while hospitalized?² Our Acute Care Configuration makes decontamination simple. The full vinyl wrap covers the seat and back in one smooth surface for easy cleaning.

Safe Seating for Fall Prevention

Injuries from non-fatal falls in older adults cost the healthcare industry \$80 billion dollars in 2020.³ Falls are the leading cause of death for people ages 65 and older.⁴ Broda seating solutions are designed to prevent falls and reduce risk during transfers.

Prevent Injuries in the Workplace

Healthcare workers experience non-fatal occupational injuries at nearly 2x the national average across all sectors.⁵ The tilt and recline functionality of Broda wheelchairs keep caregivers safe by minimizing heavy lifting and extra transfers.

Guaranteed Return on Investment

Broda understands the crucial nature of durable medical equipment in acute care. That's why we offer an industry-leading 10-year warranty on our steel wheelchair frames. Broda equipment more than pays for itself with a long lifespan you can trust.

The Broda Smile

When someone sits in a Broda wheelchair for the first time, their face says it all. Expressions always shift from pain and discomfort to contentment and relief. We fondly refer to this expression as the “Broda Smile.” These faces inspire our mission to transform healthcare comfort globally.
