Dear Valued Customer,

At Cardinal Health™, we are continuously working to optimize our product offering by creating scale in the right places and investing in the areas that matter to you. Our Portfolio and Product Management process utilizes extensive customer research, coupled with your need for differentiated, innovative, sustainable, and quality products, to determine the products in our portfolio. This has provided insight into areas where we can streamline our offering while leveraging our expertise in distribution to offer a complete solution of products.

Full portfolio discontinuation:

As a part of this work, **we will discontinue our Cardinal Health™ Grooming, Baby Care Grooming, Lube Jelly, Feminine Hygiene, and Infant CPAP portfolios in July 2024**, or when inventory is fully depleted.

For Cardinal Health distributed customers, **we have contracted with Dukal as part of our Performance Plus™ product offering** to support your needs in the Grooming, Baby Care Grooming, and Lube Jelly portfolios. Please see Table 1 for recommended alternatives, and estimated inventory depletion dates for the Cardinal Health brand product.

Portfolio reduction only:

As we **simplify additional Cardinal Health brand businesses, we will discontinue select products within the portfolios listed below**. Please see Table 2 for product level detail, including estimated inventory depletion dates and suggested alternative products. When inventory is depleted, you will need to transition your ordering to a Cardinal Health™ product or alternate supplier.
