Dear Valued Customer,

Subject: Nitrile exam gloves potential supply disruption

Cardinal Health is closely monitoring market conditions related to the conflict in the Middle East. Currently, we have strong inventory levels of nitrile exam gloves, which puts us in a good position to support customers while the exam glove market is constrained. In parallel, we are monitoring market volatility and resulting raw material availability and related increased costs.

Cardinal Health has a diversified network of suppliers throughout Asia to help ensure production supply consistently meets our customers' needs. We are committed to prioritizing inventory to our loyal customers, and we have placed allocation controls on these products.

We will continue to monitor this evolving situation and provide updates as needed.

If you have any questions or need assistance, please contact your dedicated sales representative or Cardinal Health Customer Service at 800-964-5227.

Thank you for your continued business,

A handwritten signature in black ink that reads "Annie Copeland".
