Electrocardiography	Electrodes NEW UPDATE	Backorder due to manufacturing delays. Estimated Network DC Recovery Date: May 2024 Items 22853, 22930, 22933, and 22935 are on rolling backorder until May 2024. Direct substitutes are available. Estimated Network DC Recovery Date: June 2024 Item 22855- is on rolling backorder until June 2024. Direct substitutes are available. The rest of the electrode portfolio is healthy and accepting new business.
Enteral Feeding	Enteral Feeding Pumps & Sets NEW UPDATE	Kangaroo OMNI - The Kangaroo backpack, which can be used for the Kangaroo OMNI™ pump, will be available in Spring 2024 - The Kangaroo table stand is now available in limited quantities for the Kangaroo OMNI™ pump – please reach out to your Sales rep with any questions Kangaroo Legacy items: Joey, ePump, and Connect feeding pumps and sets - All legacy feeding pumps and sets, both healthy and constrained, were recently placed on allocation to manage customer fluctuations in demand - We will continue to receive supply of the feeding sets, and will share a letter regarding these disruptions and estimated recoveries soon 100 mL Burette Set (716154) and 100 mL Certification Set (776150) are being disrupted due to a manufacturing line transfer. Estimated recovery has been updated to early Winter 2024. Please ask your Sales rep for the ePump

		Operations Checklist and/or a blank copy of the certification certificate to track recent recerts completed while using a standard feeding set
Enteral Syringes NEW UPDATE	All Syringes - We are aware of the FDA’s recent recommendation about China-made plastic syringes. - As we learn more and complete our assessment, we will share more with you. Clear ENFit Syringes - Covidien-branded 460SE and 406SE continue to be produced to bridge a gap to recovery - We are unable to take on new business of any size	
Adult and Pediatric Feeding NEW UPDATE	NG Feeding Tubes - Dobhoff and Entriflex tubes are healthy. Pediatric Feeding Tubes 461355E and 461420E will be on a rolling BO until April when they will fully recover. All other sku’s are healthy. Gastrostomy Tubes - All G-tubes are now recovered. ENFit Accessories - The Monoject Universal Bottle Adapter with ENFit Connection (4699E) is disrupted due to a change in supplier. Estimated recovery date is June 2024.	
GI	Salem Sumps - Production of the majority of our Salem Sump portfolio was impacted by a raw material shortage on a component of the packaging. This has since been resolved, but there has been a delay in packaging validation and a manufacturing capacity limit. SKUs include ENFit, Anti-Reflux Valve, and Multifunctional Port codes. Intermittent disruptions are expected through October 2024. Please work with your sales representative for individual SKU recovery dates - Customers impacted by Bard’s ENFit Salem Sump recall should reach out to their Cardinal Health representative for purchasing opportunities of Cardinal Health brand ENFit Salem Sumps. - The Anti-Reflux Valve (8888266197) is experiencing supply constraints and will be fully recovered in June 2024.	

	IRIS NEW UPDATE	8 Fr IRIS tubes will be available in the summer. Old product expired, leading to the disruption.

	OR Towels	Cardinal Health has discontinued its blue nonsterile surgical towels, Cat. No. 28100-999 and recommend our new blue nonsterile product, Cat. No. 28700-999 as a clinical equivalent. The primary difference with the 28700-999 is the case quantity (200 ea/case vs. 100 each/case). If you prefer nonsterile surgical towels in a color other than blue, we are also launching two new nonsterile surgical towel products – GREEN Cat. No. 28200-999 and WHITE Cat. No. 28300-999.
		Cardinal Health will only offer sterile surgical towel packs in the most common pack configurations - two, four, six and eight towels per pack. As a result, we will discontinue the following surgical towel product numbers over the next several months: • 28200-001 (green, 1pk): sub 28200-002 (green, 2pk) • 28700-001 (blue, 1pk): sub 28700-002 (blue, 2pk) • 28700-010 (blue, 10pk): sub 28700-008 (blue, 8pk) • 28700-012 (blue, 12pk): sub 28700-008 (blue, 8pk) • 28700-006X (x-ray detectable, blue, 6pk): sub 28700-004X (x-ray, blue, 4pk) or 28300-006X (x-ray, white, 6pk) These products are available for ordering while supplies last. When inventory is completely depleted, please transition your ordering to an alternative product.
Presource® Procedural Packs	Custom & Standard Packs	Select components are on allocation or unavailable impacting custom and standard packs due to the impact of continuous or intermittent global supply chain disruptions. Estimated Recovery Dates: Ongoing rolling backorders on various components impacting standard and custom packs. Full recovery TBD.

		29449NB - Estimated Recovery Date: April 26 29442 – Estimated Recovery Date: April 12 29443N – Estimated Recovery Date: April 26 29442NA – Estimated Recovery Date: April 5 29449 – Estimated Recovery Date: April 26 29442NA- Estimated Recovery Date: April 5 Healthy Codes: 29443, 29447, 29448, 29452
	Back Table Cover	All table cover drapes are healthy. Currently working on routing product through the system to fulfil backorders. Healthy Codes: 8186, 8188NC, 8376, 8377, 8385, 8377, 8878, 9385
Surgical Gowns	Surgical Gowns are experiencing rolling back orders due to labor constraints at the manufacturing sites. Plants have increased hiring and are adding shifts to cover the gap as quickly as possible. Recovery expected through March 2024 with a return to normal in April 2024. There are no Surgical Gown codes remaining on allocation.	
Surgical Essentials	Cardiothoracic Care	We are experiencing manufacturing delays on our ARGYLE™ Aortic Cannulas due to raw material shortages. You may experience rolling backorders while our supply health improves. Estimated Recovery Dates: 8888591065: April 2024 8888591073: May 2024 8888591099: August 2024
		We are experiencing a material shortage on our Ferguson Sump Vent Catheter (Cat. No. 8888590018) on which you may experience a rolling backorder until supply improves. Estimated Recovery Date: May 2024
		We are experiencing a delay in raw materials with our Carotid Artery Shunt Kit (Cat. No. 8888577775). Cardinal Health is the only manufacturer of this kit and there are no national brand subs. Estimated Recovery Date: May 2024
	Surgical Clippers	Due to limited availability of our surgical clipper handle (Cat. No. CAH4413), we are not able to support new business until July 2024. We have a healthy supply of clipper blades (Cat. Nos. CAH4403, CAH4406D, CAH4412D) to support and maintain current base business.
	Open Suction NEW UPDATE	Directional Valve Suction Catheters We will be discontinuing directional valve suction catheters. Codes: 141906, 141908, 141900, 141901, 141902, 141903,

		Estimated Recovery Dates • 888257386, 888257485: March 2024 • 888258608: March 2024 • 888257550: March 2024 • 888257527: April 2024 The following product codes have been temporarily inactivated to suspend ordering and minimize backorders until production resumes and inventory is available in network. • 8884724500 • 888257360 • 888257378 • 888257469 • 888257477 • 888257535
	Topical Skin Adhesives	The Cardinal Health™ Liquiband® Topical Skin Adhesive product line has been discontinued/exited and only residual inventory remains within our network. Impacted products include: CHLOT01-08, CHLOM01-04, LFC004T, and LQB003T. CHLOM01-04 is the only product with significant remaining inventory for sale. Cardinal Health will offer liquidation pricing to accelerate the inventory depletion timing. If you are interested in purchasing, please contact your local Cardinal Health sales representative.
	Positioners	Cardinal Health will discontinue/retire our Arm Protector, Cardinal Health Material No. FP-SLTARM once inventory has been fully depleted from our network (Inventory still available). Please consider an alternate Cardinal Health solution such as FP-ARMB1 (Devon™ Armboard Pad) or FP-OVER1 (Devon™ Utility Pad). 20x12x2in. Additional competitive alternatives are available from DeRoyal (Material No. 9262-00D), Soule Medical (Material No. CAB100), and Xodus Medical (Material Nos. 40418, 40426, 40433).
Surgical Gloves	Protexis™	Protexis™ Surgical Gloves Portfolio is available for sale without restriction. NOTE: Due to increased demand within Protexis™ Neoprene Essential category, we continue to experience rolling backorders. Estimated Recovery Size 5.5 (2D73DS55) and Size 8.5 (2D73DS85) is anticipated by March 31st. Estimated Recovery for Size 8.0 (2D73DS80) by April 30th. Estimated full recovery of Size 6.0 (2D73DS60), Size 6.5 (2D73DS65), Size 7.0 (2D73DS70), Size 7.5 (2D73DS75) and Size 9.0 (2D73DS90) is estimated by May 31st. Product is being air freighted to mitigate outages and provide quicker relief. Protexis™ Neoprene (2D73DPXX) is a great

		alternative if there are no known allergies to carbamates. If allergies are not of concern, our Protexis™ PI portfolio is a great solution.
Traditional Wound Care and Advanced Wound Care	NEW UPDATES	Our Wound Care portfolio continues to experience various supply constraints due to the highly volatile global supply market and transportation delays. Simultaneously, we are experiencing production delays at one of our Wound Care manufacturing sites which further impacts supply.
