Electrocardiography	Electrodes NEW UPDATE	Backorder due to manufacturing delays. Estimated Network DC Recovery Date: June 2024 Items 22453-, 22855-, 22930, 22935, and 31439725- are on rolling backorder until June 2024. Direct substitutes are available. The rest of the electrode portfolio is healthy and accepting new business.
Enteral Feeding	Enteral Feeding Pumps & Sets NEW UPDATE	Kangaroo OMNI - The Kangaroo backpack, which can be used for the Kangaroo OMNI™ pump, will be available in Spring 2024 - The Kangaroo table stand is now available in limited quantities for the Kangaroo OMNI™ pump – please reach out to your Sales rep with any questions Kangaroo Legacy items: Joey, ePump, and Connect feeding pumps and sets - All legacy feeding pumps and sets, both healthy and constrained, were placed on allocation to manage customer fluctuations in demand - A customer letter outlining the expected recovery dates for Legacy feeding sets was made available in early April 2024 – please connect with your Sales rep if you have not received a copy yet 100 mL Burette Set (716154) and 100 mL Certification Set (776150) are being disrupted due to a manufacturing line transfer. Estimated recovery has been updated to early Winter 2024. Please ask your Sales rep for the ePump Operations Checklist and/or a blank copy of the certification certificate to track recent recerts completed while using a standard feeding set
	Enteral Syringes NEW UPDATE	All Syringes - We are aware of the FDA's recent recommendation about China-made plastic syringes. - As we learn more and complete our assessment, we will share more with you. - Non-sterile ENFit SKUs have been removed from hold. Clear ENFit Syringes - Covidien-branded 460SE continues to be produced to bridge a gap to recovery - We are unable to take on new business of any size

	Adult and Pediatric Feeding	NG Feeding Tubes - Dobbhoff and Entriflex tubes are healthy. Pediatric Feeding Tubes - All SKUs are recovered except 461438E and should recover by June. Gastrostomy Tubes - All G-tubes are now recovered. ENFit Accessories - The Monoject Universal Bottle Adapter with ENFit Connection (4699E) is disrupted due to a change in supplier. Backorder will continue into FY25.
	GI	Salem Sumps - Production of the majority of our Salem Sump portfolio was impacted by a raw material shortage on a component of the packaging as well as delayed packaging validation. Both issues have since been resolved and a majority of the portfolio is healthy again, though there are a few SKUs (listed below) with lingering recovery dates that will remain on EMER and fair share allocation: - May recovery - 8888264929E - June recovery – 8888266130, 771111E, 7771010E - July recovery – 8888264911, 8888264911E, 8888266106, 8888266122, 8888266106E - The Anti-Reflux Valve (8888266197) is fully recovered
	IRIS	8 Fr IRIS tubes will be available in the summer. Old product expired, leading to the disruption.
Facial Protection

		We are experiencing a material shortage on our Ferguson Sump Vent Catheter (Cat. No. 8888590018) on which you may experience a rolling backorder until supply improves. Estimated Recovery Date: July 2024
		We are experiencing a delay in raw materials with our Carotid Artery Shunt Kit (Cat. No. 8888577775). Cardinal Health is the only manufacturer of this kit and there are no national brand subs. Estimated Recovery Date: July 2024
	Surgical Clippers	Due to limited availability of our surgical clipper handle (Cat. No. CAH4413), we are not able to support new business until July 2024. We have a healthy supply of clipper blades (Cat. Nos. CAH4403, CAH4406D, CAH4412D) to support and maintain current base business.
	Open Suction	Directional Valve Suction Catheters We will be discontinuing directional valve suction catheters. Codes: 141906, 141908, 141900, 141901, 141902, 141903, 141903, 141904, 141988, 141980, 141982. Depletion dates vary from May-December. Single sterile suction catheters and kits We are experiencing manufacturing delays on select product codes due to packaging raw material shortages. You may experience rolling backorders while our supply health improves. Estimated Recovery Dates: - Single Sterile Suction Catheters 30500-: October 2024

Sterile irrigating solutions & suction catheter wet trays

Due to a manufacturer recall (Nurse Assist), the following Cardinal Health brand products are impacted.

Irrigating solutions	Suction catheter WET trays – with Sterile Saline	Suction catheter WET trays – with Sterile Water
Sterile saline • 1020 • 1022- Sterile water • 10000- • 1024-	• 12062-, 6Fr • 12082, 8Fr • 12102-, 10Fr • 12142, 14Fr • 12153, 14Fr with drape • 12182-, 18Fr	• 10062, 6Fr • 10082, 8Fr • 10102, 10Fr • 10122, 12Fr • 10142, 14Fr • 12191, 14Fr with drape • 10182, 18Fr

We will temporarily no longer be taking orders for the 100mL sterile water and sterile saline bottles and foil packs while we search for an alternative vendor.

- Item codes: 1020, 1022-, 10000-, 1024-

We anticipate having a new supplier in December 2024 and will reactivate these codes at that time.

We do not have a CAH (Cardinal Health) brand alternative for the irrigating solutions. The recommended National brand supplier for sterile saline/water is B. Braun (Performance Plus).

NOTE: 100mL bottle not available; 500mL and 1000mL only.

For wet trays, customers consider ordering our Dry Kits/Trays and then purchasing a national brand sterile water or saline separately. Please contact your local sales representative for substitute recommendations.

Mucus specimen traps / containers

We are changing the supplier and production location for our ARGYLE™ Mucus Traps and Specimen Containers. There will be rolling backorders and stock-outs during this transition period. We have placed the impacted mucus specimen traps and containers on allocation until our overall inventory health improves.

Estimated Recovery Dates

- 888257386, 8888257485: July 2024
- 8888258608: July 2024
- 8888257550: July 2024
- 8888257527: July 2024

The following product codes have been temporarily inactivated to suspend ordering and minimize backorders until production resumes and inventory is available in network.

- 8884724500

		• 8888257360 • 8888257378 • 8888257469 • 8888257477 • 8888257535
	Topical Skin Adhesives	The Cardinal Health™ Liquiband® Topical Skin Adhesive product line has been discontinued/exited and only residual inventory remains within our network. Impacted products include: CHLOT01-08, CHLOM01-04, LFC004T, and LQB003T. CHLOM01-04 is the only product with significant remaining inventory for sale. Cardinal Health will offer liquidation pricing to accelerate the inventory depletion timing. If you are interested in purchasing, please contact your local Cardinal Health sales representative.
	Positioners	Cardinal Health will discontinue/retire our Arm Protector, Cardinal Health Material No. FP-SLTARM once inventory has been fully depleted from our network (Inventory still available). Please consider an alternate Cardinal Health solution such as FP-ARMB1 (Devon™ Armboard Pad) or FP-OVER1 (Devon™ Utility Pad). 20x12x2in. Additional competitive alternatives are available from DeRoyal (Material No. 9262-00D), Soule Medical (Material No. CAB100), and Xodus Medical (Material Nos. 40418, 40426, 40433).
Surgical Gloves	Protexis™	Protexis™ Surgical Gloves Portfolio is available for sale without restriction. NOTE: Due to increased demand within Protexis™ Neoprene Essential category, we continue to experience rolling backorders on certain sizes. Size 5.5 (2D73DS55), Size 6.5 (2D73DS65), Size 7.0 (2D73DS70), Size 7.5 (2D73DS75), Size 8.0 (2D73DS80) and Size 8.5 (2D73DS85) have recovered. Estimated full recovery of Size 6.0 (2D73DS60) is by May 31st. Estimated full recovery of Size 9.0 (2D73DS90) is June 30th. Product is being air freighted to mitigate outages and provide quicker relief. Protexis™ Neoprene (2D73DPXX) is a great alternative if there are no known allergies to carbamates. If allergies are not of concern, our Protexis™ PI portfolio is a great solution. We will continue to assess fluctuations in demand against recovery dates.

Thermometry	Filac	We are experiencing a manufacturing delay on 500026 Estimated Recovery: June 2024
	Genius Calibrator	Due to a change in manufacturing locations, there will be a delay in production through September 2024.
