CooperSurgical®

July 31, 2024

Dear Customer,

As a leading women's healthcare and fertility company dedicated to putting time on the side of women, babies, and families at the healthcare moments that matter most in life, CooperSurgical is committed to providing you with the highest quality customer service, product support, and technically advanced products. We pride ourselves on supporting you, our valued customers.

After careful consideration, a strategic business decision has been made to provide customers with a streamlined ordering and fulfillment process. Milex® Pessary Kits (individual pessary with TRIMO-SAN™ Vaginal Gel) will be discontinued and instead, customers can order the individual pessary as well as TRIMO-SAN™ Vaginal Gel as standalone items.

Effective immediately, the discontinued product numbers in the table attached, Table A, will no longer be available to order. Included in the table are the replacement product numbers (only the pessary), and the TRIMO-SAN™ Vaginal Gel product number (MX5030) which can be purchased as a standalone item.

Effective August 30, 2024, the discontinued product numbers in the table attached, Table B, will no longer be available to order. Included in the table are the replacement product numbers (only the pessary), and the TRIMO-SAN™ Vaginal Gel product number (MX5030) which can be purchased as a standalone item.

Those customers that have outstanding kit orders for any of the product numbers listed in Table A will receive an additional communication outlining instructions to convert these orders to standalone.

As a valued customer of CooperSurgical, we remain committed to providing you with high quality products and service. We regret any inconvenience this notification may cause and appreciate your patience as well as your continued business.

If we can be of further service, please do not hesitate to call your sales representative or Customer Service at 800.243.2974. Thank you for your continued support of CooperSurgical products.

Mallory Berko

Global Marketing Director, Diagnostic and Uterine Health
