December 20, 2024

Dear Valued Customer:

Cardinal Health remains committed to serving the healthcare community by providing products and services that are essential to care. We're writing to inform you of changes occurring within our Cardiothoracic product portfolio.

Rebranding

Cardinal Health is transitioning from Covidien brand and sub-brand names to Cardinal Health brand names. Chest Drainage Units, Thoracic and Trocar Catheters, and Specialty products within our Cardiothoracic product portfolio will be rebranded from Covidien to Cardinal Health brand.

Please note:

- There are no changes to product specifications, product performance, manufacturing processes, or quality inspection procedures as a result of rebranding. The only change is to product labeling.
- References to, and use of, Covidien trademarks will be removed from product art, logos, packaging, and labeling. New labels will reflect Cardinal Health branding.
- A list of impacted items and the estimated dates of when Covidien brand product will deplete and switch to Cardinal Health brand can be found in the Appendix A, B, and C sections of this document.
 - Appendix A: Chest Drainage Units / February 2025
 - Appendix B: Thoracic and Trocar Catheters / March 2025
 - Appendix C: Specialty Products / January 2025

Thoracic & Trocar Catheters -- Catalog Number Changes

Thoracic Catheters and Trocar Catheters are being assigned new catalog numbers and GTINs. No changes have been made to product specifications, product performance, manufacturing processes, or quality inspection procedures as a result of the catalog number changes. Only the product labeling and catalog numbers will change. Reference Appendix B for details on the changes. Product in Covidien brand is estimated to deplete and switch over to Cardinal Health brand by March 2025.

Chest Drainage Units -- Instructions for Use Update

The Instructions for Use for Cardinal Health™ Chest Drainage Units (CDUs) have been updated to clarify the intended/target patient population as adults. CDU products affected by this change are referenced in Appendix A.

DEHP Update

Effective February 2025, Thora-Seal™ I and Thora-Seal™ II CDUs and Argyle™ "Y" Tubing Extension Set will be made with materials that do not contain DEHP. With this change, the entire Chest Drainage portfolio is now made with materials that do not contain DEHP.

Please contact your Cardinal Health sales representative for further questions.

Sincerely,

Candace Underhill
Vice President, US Marketing
