RELI® CONVENTIONAL LUER LOCK SYRINGES

Pictured:
S5ML

Reli® Conventional Syringes by MYCO Medical are designed to help improve clinical efficiency and ease-of-use, minimize waste, and maximize cost savings. Reli® Conventional Syringes are compatible with any standard Luer Lock needle and come available in multiple sizes.

- Low dead space (1 and 3 ML only)
- Luer lock connector for secure needle attachment
- Translucent barrel and well defined markings for easy reading and accurate dosing
- Rubber piston with double-sealing ring allows controlled aspiration and injection
- Safe plunger backstop prevents accidental plunger withdrawal
- Not made with natural rubber latex

Low-dead-space syringes ensure all medication is properly administered to help reduce waste and improve cost savings.
