DermaCleenz

Woundwash

Overview

DermaCleenz is a non-irritating, no-rinse, pH-balanced formula developed to remove debris, dead tissue, blot clots, slough and other materials from the wound bed to promote wound healing

Features

Non-irritating and pH balanced - formulated to match the natural, slightly acidic pH of the skin to support its barrier function.

No-rinse formula - easy application to minimize wound tissue disruption.

Zinc Enriched - the addition of the zinc mineral for its skin healing properties

Clinical Use

Suitable for chronic wounds, ulcers, post-operative sites, minor cuts and abrasions. For low-trauma wound care patients who have limited mobility or are bed-bound.

Instructions

Spray onto the skin or wound bed to gently clean the skin or wound areas.

Item#	Description	Case Qty
7304	4oz. DermaCleenz Woundwash	12 bottles
7308	8oz. DermaCleenz Woundwash	12 bottles

Harmful if swallowed, keep out of reach of children. Drink large amounts of water and consult poison control. Keep cool and out of sunlight.
