2. Ounce for ounce kills more germs than other national brands when used on hands in accordance with FDA Health Care Personnel Handwash test methodology.

Choosing the Right Surgical Scrub for Your Facility

PURELL® Waterless Surgical Scrub

- Has broad-spectrum antimicrobial efficacy on gram-negative and gram-positive bacteria
- Exceeds FDA requirements for in vivo testing of surgical scrub
- Approved for the first scrub of the day
- Meets AORN guidelines

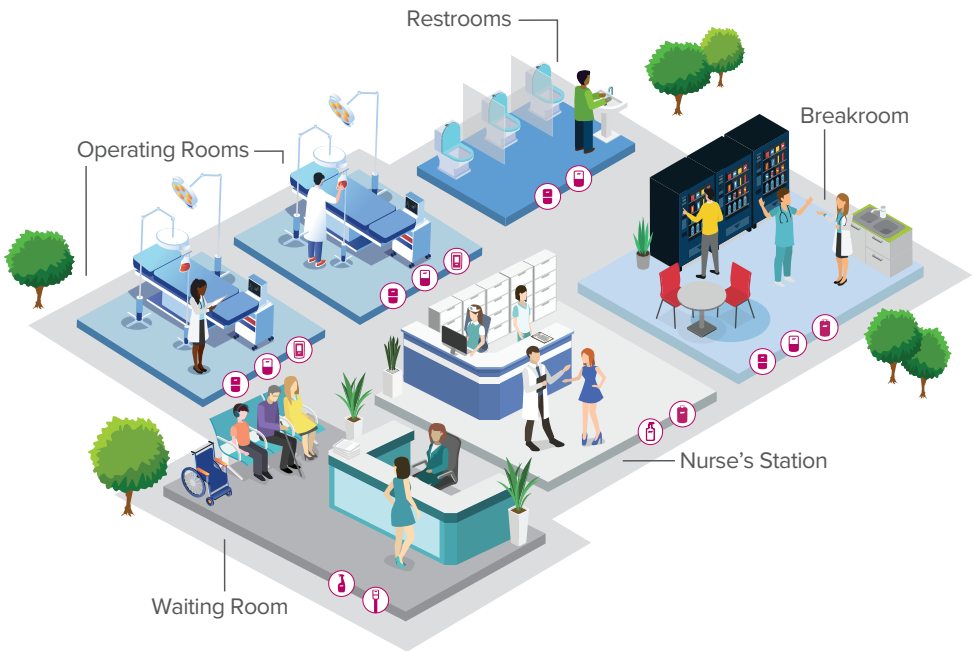

PURELL® Healthcare FOAM HANDWASH with 2% CHG

- Contains 2% CHG to kill pathogenic gram-positive and gram-negative bacteria
- Exceeds FDA's Healthcare Personnel Handwash Requirements
- Proven to be as mild as non-antimicrobial soaps
- Ideal for high-acuity areas

PERFECT PLACEMENT™ for PURELL® Products

A complete solution with trusted products in the right locations to help improve patient and staff satisfaction.

GOJO, MAKERS OF PURELL™

The Efficacy You Need.
The Skin Health You Want.

Make PURELL® Products
Part of Your Surgery Center

The Best Waterless Surgical Scrub on the Market for Your Skin

With most surgical staff members scrubbing between 10 to 15 times per day, skin irritation can be a major problem, resulting in hand colonization with pathogens, less handwashing, and increased risk for infection.¹

PURELL® Waterless Surgical Scrub is free of common skin allergens, harsh preservatives, dyes, and fragrances. Its patented, silky-smooth formulation with rich skin conditioners leaves hands feeling soft and moisturized after each use. Plus, a 21-Day Cumulative Irritation Test showed that it was significantly less irritating than three competitive products.
