Customer Communication

Subject: Product Discontinuation Update

July 14, 2025

Dear Valued Customer,

Following previous communication, we would like to remind you that our legacy line of Mahurkar™ acute hemodialysis catheters is planned to be discontinued and will no longer be available from Mozarc Medical with an estimated inventory run out date of December 2025. Please note that our Mahurkar Elite catheters **are not** in scope for this planned discontinuation. A list of impacted items can be found in Appendix A.

All finished goods produced prior to the official discontinuation date and shipped to the distribution center will be available for purchase until inventory run out.

We recommend the Mahurkar™ Elite family of acute hemodialysis catheters as a substitution, and kindly ask that you start evaluating all necessary activities to execute this transition. A cross reference can be found In Appendix B.

Please contact your local Mozarc Medical representative to answer any questions and assist in transition activities.

Sincerely,

Global Marketing Team, Mozarc Medical
