RE: Important HibiClens Product Line Update - Discontinuation Notice

Dear Valued Customer,

On behalf of Mölnlycke and the Hibi Antiseptics Business Area, I want to express our sincere appreciation for the valuable partnership we have established over many years. Your commitment to providing quality healthcare solutions to end users has been instrumental to our mutual success.

After the careful strategic review of our previous larger sized 32oz and 1 Gal bottle discontinuation, we have made the decision to discontinue these SKUs as well:

Previously Discontinued:

- **57532** Hibi 32oz Bottle
- **57591** Hibi 1 Gal Bottle

Now Discontinued:

- **59902** Hibi 32oz Hand Pump
- **59903** Hibi 1-gallon Hand Pump
- **59904** Hibi Pump Assembly
- **59905** Hibi Foot Pedal
- **59994** Hibi Foot Wall Dispenser
- **59996** Hibi Hand Wall Dispenser

Our Ongoing Partnership:

The products above were solely used as accessories for previously discontinued products, therefore they are no longer needed. This reflects our strategic alignment to exit bulk volume products. We remain deeply committed to our mutual customers with comprehensive support to the remainder of our portfolio. If you have any questions, please reach out to your local HibiClens® representative as they are happy to help identify other options for you.

We thank you for your continued partnership.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Barys", is written over a light gray horizontal line.
