

December 12, 2025

Dear Valued Distributor,

Mölnlycke, manufacturer of Biogel® surgical gloves, announces the following changes to the Biogel® **natural rubber latex (NRL) product line**. Due to the increasing user preference of synthetic (non-latex) surgical gloves, Mölnlycke plans to discontinue select glove styles: Biogel® Eclipse®, Biogel® Sensor®, and Biogel® Optifit® Orthopaedic. We will continue to offer a variety of other natural rubber latex gloves as well as a broad range of synthetic surgical gloves from which customers may choose based on their practice needs.

As of December 31, 2025, these products will no longer be available on GPO contracts. In order to extend the timeframe in which customers can purchase these discontinued styles, Mölnlycke is pleased to offer courtesy pricing to all interested customers for a limited time. The following schedule lists products affected and relevant dates. End user courtesy pricing details on enclosed spreadsheet (MHC Contract # 5258.) Depending on demand, inventory of these products may deplete before the final discontinuation date.

---PRODUCTS TO BE DISCONTINUED---with correction

Product Code	Description	Glove Type	End User Courtesy Pricing Start Date	Final Discontinuation Date
