

March 1, 2026

Dear Valued Distributor:

Nestlé Health Science is committed to providing high-quality, science-based nutrition formulas to our customers and patients. As such, we are writing to share the following update to our product portfolio.

Benecalorie®– Product Discontinued

After thoughtful consideration, we have made the difficult decision to discontinue Benecalorie®, effective March 1, 2026. We understand how valuable this product has been to many, and we recognize the frustration caused by its extended out of stock status, despite our sustained efforts to restore supply. This decision was not taken lightly. Ultimately, it allows us to improve our manufacturing efficiencies so we can better support consistent availability across our broader portfolio of products.

Below, you'll find a chart identifying the specific SKU being discontinued.

Discontinued Product Description	Discontinued Product Code	Discontinued Case UPC/GTIN Code
BENECALORIE®, Unflavored 24 x 1.5 fl oz cups	28250000	10043900282500

We understand that the discontinuation of Benecalorie® impacts both you and your customers and we apologize for any inconvenience this may cause. We want to assure you that we remain committed to providing high-quality nutritional products that meet the diverse needs of our customers. While there is no direct alternative to Benecalorie®, healthcare professionals may consider the following products:
