Dear Valued Distributor:

Nestlé Health Science is committed to providing high-quality, science-based nutrition formulas. In the spirit of continuous improvement, we would like to share the following update to our product portfolio.

Novasource® Renal Vanilla Flavor Update

In order to ensure all ingredients in our products align to the same standards, consumer preferences, and provide the consistent supply needed to support the demand, we have updated our vanilla flavor in Novasource® Renal Vanilla. Consumers may notice a slight difference in flavor, more aligned to other vanilla products in our portfolio. **There are NO changes to the nutrition information, label, packaging or codes.**

Novasource® Renal with the new vanilla flavor will start flowing into the market in November of 2025, depending on Nestlé's inventory. These dates are subject to change.

Novasource® Renal Mocha and Strawberry remain unchanged.
