

December 1, 2025

Dear Valued Distributor,

Nestlé Health Science is committed to providing high-quality, science-based nutrition formulas. In the spirit of continuous improvement, we would like to share the following updates to our product portfolio.

## COMPLEAT® Organic Blends and COMPLEAT® Pediatric Organic Blends

In our ongoing effort to improve our portfolio, we have new formulations that will replace our current COMPLEAT® Organic Blends and COMPLEAT® Pediatric Organic Blends formulations. These formulas will continue to provide all the nutrition you have come to depend on from COMPLEAT Organic Blends, plus provide improvements with our packaging, ingredient sourcing, and processing method to better ensure supply and availability of our formulas, and create a smoother, more consistent formulation.

Through this relaunch, we are enhancing our packaging with the addition of an easy-to-open, spouted pouch that can be reclosed and sealed. We've heard your feedback that our existing tear open packaging has been a pain point for you and your patients, and we are excited to now offer this feature.

In addition, we have made ingredient sourcing changes and nutrient changes to account for the natural variability of nutrients in the organic ingredients and blenderized whole foods. These changes result in minor differences in the percentage of total calories provided by protein, fat, and carbohydrates. The formulas continue to meet the dietary reference intake (DRI) requirements for key vitamins, minerals and protein and continue to provide an excellent option for those patients clinically indicated to receive blenderized whole foods to support nutritional needs and feeding tolerance. We have enclosed a comprehensive side-by-side to illustrate the macronutrient and micronutrient changes as well as a comprehensive specification sheet to outline the changes to pallet configuration and case dimensions.

What Is Changing?	What Is NOT Changing?
<ul style="list-style-type: none"> <li>• New recloseable pouch</li> <li>• All product codes, UPCs, and NDC-format number</li> <li>• Pallet configuration</li> <li>• Case dimensions</li> <li>• Kcal/mL on <b>Adult</b> skus only</li> <li>• All formulas now contain at least 4 cup equivalents of fruits and vegetables per 1000 mL</li> <li>• Macronutrient values</li> <li>• Micronutrient changes to better align with the DRIs of vitamins and minerals</li> <li>• Changes to specific ingredients and adjustments to ingredient list order</li> </ul>	<ul style="list-style-type: none"> <li>• The inclusion of blended whole foods</li> <li>• USDA Certified Organic status</li> <li>• Non-GMO* status</li> <li>• *Organic products are always non-GMO</li> <li>• mLs (volume) per container</li> <li>• Case count (24 ct cases)</li> </ul>

Product Description	Current Product		New Product		Estimated In-Market Date

Current Packaging	New Packaging
	

#### If you order through a Distributor

- Please confirm with your distributor their process for code changes and confirm when your distributor has substituted the new product codes for the existing.
- Please continue to proactively communicate your case usage to your distributor.

#### If you order direct or are a Distributor:

- As UPC and product codes change from the current to new product information, orders may be cut.
- Work with your distributor manager on the most efficient way to manage the product transition in your system.

## BOOST® Original Nutritional Drink Packaging Update (Institutional Only)

As part of continued process improvements in our manufacturing plants, BOOST® Original Nutritional Drinks (both Rich Chocolate and Very Vanilla flavored products) will be transitioning back into the Tetra Prisma® carton. This change will help us better meet demand of BOOST® Nutritional Drink products moving forward and help us facilitate packaging consistency across our product lines. **It is important to note that there will be no changes in the formula.**

Below is the BOOST® Original Nutritional Drink SKU moving to the Tetra Prisma® format. The estimated in-market date is dependent on Nestlé's and distributors' current inventory supply and is subject to change. We are making every effort to minimize disruption to supply chain and appreciate your continued support in this time of significant supply challenges.

Product Description	Product Code	Case UPC/GTIN Code	Est. In-Market Date
	No Code Changes		
BOOST® Original, Chocolate 24 x 8 fl oz carton	4390016972	00043900169729	March 2026
BOOST® Original, Very Vanilla 24 x 8 fl oz carton	4390058276	00043900582764	Feb 2026

What Is Changing?	What Is NOT Changing?
