

March 23, 2026

Dear Valued Customer,

Owens & Minor continues to closely monitor the ongoing conflict in the Middle East. At this time, supply chain disruptions are affecting the availability of key raw materials, including butadiene, which is essential in the production of nitrile gloves. Due to the resulting shifts in market demand, we are implementing temporary allocation measures to help ensure consistent supply for our customers.

Effective immediately, HALYARD* glove products will be on a weekly allocation of 100% of historical usage. Please refer to Attachment A for a list of affected products.

Owens & Minor distributes select glove lines from other manufacturers that may be subject to allocation, and we will honor and match those manufacturers' supply commitments.

We continue to leverage our diversified global manufacturing and sourcing network and are working closely with production partners to monitor conditions and support supply continuity.

We remain committed to delivering a high level of service with a goal of providing a consistent supply of our HALYARD* glove products. Should you have any questions or concerns, please do not hesitate to reach out to your local representative.

Regards,

A handwritten signature in dark ink that reads 'Dirk Benson'.
