

January 16, 2026

Dear Valued Customer,

At Owens & Minor, our primary objective is to enable our customers to deliver patient care by maintaining a standard of excellence in quality and service delivery.

As such, we want to provide you with an update regarding a voluntary **Medline Limited Lot Product Recall** of the Proxima line of Sterile Surgical Drapes and Gowns and how it may impact your organization.

Due to this recall and resulting demand shifts across the market, we are implementing a protective allocation to ensure that we can maintain adequate supply for our customers during this period.

Effective **Thursday, January 15, 2026**, we are implementing allocation order controls at the distributor location level on select Sterile Surgical Drapes and Gowns at 120% of historical weekly usage. A list of impacted items is attached to this communication.

Note: Non-sterile Drapes & Gowns, Standard Packs, ACM Drapes, and Sterile & Non-Sterile Accessories are currently not impacted by this allocation.

We are committed to maintaining the highest levels of service for our customers. Should you have any questions or concerns, or if you have a product request in excess of your allocation, please do not hesitate to reach out to your local representative.

Regards,

A handwritten signature in dark red ink that reads 'Andrea M. Harrison'.
