

Subject: Important Update Regarding Product Availability and Order Fulfillment on S2S Global Products

Attn: Distributor Partners

As you are aware, in August we implemented a temporary 50% allocation on all Incontinence SKUs to ensure fair distribution of our limited inventory among our valued customers. We initially estimated that we would be able to remove the allocation in October 2025 to resume normal order level fulfillments. Unfortunately, we are experiencing continued delays on some SKUs and now estimate entire removal of allocation in January 2026. For certain items, we have released the allocation effective 10/1/2025 which you will find on page 2.

All S2S Global current customers have been notified of this allocation on these SKUs. Orders that in total exceed 50% of your normal average orders from April, May, June 2025 are subject to additional review and may be subject to reduction or cancellation. Please note that additional time is required for reviewing any orders that exceed normal allocation demand and may experience additional processing delays.

Please contact Zachary_Steele@s2s-global.com if you have any questions or want to confirm your allocation amount. Included on following pages are the SKUs that are being placed on allocation.

For any questions regarding your order please contact orders@s2s-global.com.

Incontinence SKUs released from allocation effective 10/1/2025
