

Sani-HP1™ Germicidal Wipes Now Approved by Federal EPA

Dear Valued Customer,

PDI is excited to announce the U.S. Environmental Protection Agency (EPA) registration of **Sani-HP1™** Germicidal Disposable Wipes, an innovative, new addition to our surface disinfection portfolio. Powered by a hydrogen peroxide formula, **Sani-HP1** is engineered to meet the evolving needs of healthcare facilities by combining broad-spectrum efficacy with exceptional material compatibility.

Key Features & Benefits of **Sani-HP1**:

- ✓ One-minute contact time – Effective against Norovirus, *Candida auris*, multi-drug resistant bacteria, and TB
- ✓ Broad-spectrum disinfection – Bactericidal, Fungicidal, Tuberculocidal, and Virucidal
- ✓ Enhanced surface compatibility – Powered by PDI's proprietary Hydroguard Technology™ to help protect sensitive healthcare surfaces and equipment
- ✓ No PPE required – Category IV Safety Profile, non-irritating formulation
- ✓ Available in a variety of packaging options

Sani-HP1 has received Federal EPA approval, and is awaiting state approval.

Please load this item as soon as possible with a hold restriction. As soon as product is available to order, PDI will notify. Should you have any questions, please contact PDI customer service (800-999-6423).
