

Notice of Product Discontinuation: 3M™ Reston™ Self-Adhering Foam Pads & Rolls

April 2025,

Dear Valued Customer,

Solventum's Medical Surgical Business will be discontinuing the products listed in the table below. The table provides the target discontinuation date for each affected product and suggested alternatives to help assist with this transition, where applicable.

Solventum will continue to sell the products to existing customers until the inventory is depleted. Existing inventory can still be used and sold by distributors for as long as there is stock available. As the target discontinuation date for each product approaches, there will be a point where the product(s) will no longer be available for purchase. This may occur slightly before or after the target discontinuation date.
