

Notice of New Product Introduction: 3M™ Attest™ Super Rapid Vaporized Hydrogen Peroxide Clear Challenge Pack

February 2025

Dear Valued Solventum Channel Partner,

Solventum is proud to announce the launch of our latest innovation to the market, focusing on the evolving needs of the customer.

We are excited to introduce the **3M™ Attest™ Super Rapid Vaporized Hydrogen Peroxide Clear Challenge Pack**, which will be available to order beginning April 1st, 2025.

Save time and reduce potential error with the 3M™ Attest™ Super Rapid Vaporized Hydrogen Peroxide Clear Challenge Pack which includes a BI and a CI. It's the first and only preassembled VH2O2 test pack that can be used for routine monitoring and qualification across multiple sterilizer brands, models and cycle types. *

- Saves time and reduces the chance for error—no need to assemble peel pouches
- Preassembled design more accurately simulates the environment inside a surgical pack than using a stand-alone BI for load monitoring
- Elevates your VH2O2 sterilization monitoring workflow to a similar level as steam sterilization best practices
- Validated across multiple sterilizer brands, models and cycle types, helping you save on inventory
