Product should be evaluated for proper use and application, and users should consult the product labeling for proper use and application prior to use.

About 3M™ SoluPrep™ S Sterile Antiseptic Solution

3M™ SoluPrep™ S Sterile Antiseptic Solution contains chlorhexidine gluconate (2% w/v) and isopropyl alcohol (70% v/v).

*Uses

Patient preoperative skin preparation

- For preparation of the skin prior to surgery
- Helps reduce bacteria that potentially can cause skin infection

Activation Instructions - Activating the Applicator:

For 67130 (26 mL) applicator

- Remove applicator from package; do not touch sponge.
- With sponge face parallel to the floor, press the cap end of the applicator.
- Solution will begin to flow into the sponge.
- **NOTE: The applicator does not require pre-activation. The sponge is designed to fill quickly with solution. To avoid pooling and dripping, activate the applicator immediately prior to use.**
- It is not necessary to shake the applicator when waiting for the solution to soak the sponge.
- For areas where a circumferential prep is required: Take care when prepping the underside of a body part. Hold the applicator so the solution continues to saturate the applicator sponge.

For 67133 (tinted) or 67134 (clear) (10.5 mL) applicators

- Remove applicator from package; do not touch sponge
- Grasp product by wrapping hand and fingers around the labeled portion of the applicator.
- Place thumb on the lever with sponge face parallel to the floor, and snap lever to allow fluid to flow into sponge.
- **NOTE: The applicator does not require pre-activation. The sponge is designed to fill quickly with solution. To avoid pooling and dripping, activate the applicator immediately prior to use.**
- It is not necessary to shake the applicator when waiting for the solution to soak the sponge.

*Please see product labeling for entire Drug Facts information. Please consult the detailed product indication, warnings, safety information and directions found in the Drug Facts prior to use.

Visit www.3M.com/solupreps for more information including complete product description, instructions for use, and an application video.

If you have any questions, or for additional support, please contact your local Solventum Sales Representative or the Solventum Customer Helpline at 1-800-228-3957.
