

February 24, 2026

Dear Valued Distributor,

STERIS remains committed to providing healthcare Customers with products and services that support patient care, with a strong focus on infection prevention. We continue to prioritize product continuity through a robust and diversified supply chain.

As previously shared, market dynamics and unanticipated disruptions resulted in a temporary strain on supply for the **VERIFY™ Steam Integrating Indicators**.

STERIS Item #	STERIS Item Description
PCC064	VERIFY STEAM INTEGRATING INDICATOR (250 STRIPS)
PCC064B	VERIFY STEAM INTEGRATING INDICATOR (8 PACKS/CASE)
PCC065	VERIFY STEAM INTEGRATING INDICATOR (1000 STRIPS)
PCC065B	VERIFY STEAM INTEGRATING INDICATOR (2 PACKS/CASE)
PCC067	VERIFY STEAM INTEGRATING INDICATOR 5CM POUCH (500)
PCC067B	VERIFY STEAM INTEGRATING INDICATOR 5CM CASE (4 X 500)

Our team is actively working to resolve this situation and restore inventory levels to a healthy position as quickly as possible. To support fair and consistent availability during this period, we will continue to release product quantities based on **60% of your historical run rates**. This approach will help maintain continuity across our network while we work toward full recovery, which is expected by the **middle of May**.

STERIS Representatives will continue engaging with our mutual Customers to determine whether substitutions may be appropriate.

We will provide ongoing updates until inventory stabilizes. In the meantime, we ask that you continue to manage your inventory closely to minimize any disruption for your Customers.

Thank you for your continued understanding, flexibility, and partnership as we work through this challenge together.

Sincerely,
Cindy Tanski
Director, Distributor Channel
