Dear Valued Posey Customer,

As part of our mission to provide exceptional service and support, we periodically review our product portfolio and discontinue items that are no longer in significant demand or that we feel no longer deliver the best customer value.

The products listed in the table below are now in the process of being discontinued; any remaining stock will be available for purchase until depleted. If you would like to make a final purchase, we would be happy to coordinate the details with you (provided the items are still in stock). Product cross-references are also listed in the table, where applicable.
