Subject: Arrow™ Stock Keeping Unit (SKU) Discontinuation (USA) 6-month notification

Dear Valued Customer,

Teleflex is in the process of updating our Arrow™ Product Lines in the United States. As part of this update, we are discontinuing select SKUs. The breadth of our product offering will be maintained, but outdated products will be phased out to ensure we provide clinicians with only the best care options.

The affected SKUs are listed in the attached Table 1. Appropriate Clinical Alternative SKUs have been provided on each chart to help you through this transition.

SKUs listed below will be discontinued on **September 1, 2025**. Teleflex is providing your institution with a 6-month notification to switch to a new SKU. We will be providing a limited quantity of these discontinued SKUs prior to September 1, 2025, but these SKUs may be out of stock prior to the September 1, 2025 date. After the specified discontinuation date, or if the limited stock has run out, orders will be redirected to the substitutes.

If you have any questions regarding this change, please contact Teleflex customer service for further assistance at 866.246.6990 or CS@teleflex.com, or your local representative for additional support.

Sincerely,

Michael Hill
Marketing Manager – Vascular Division, Teleflex
