Subject: Arrow™ Central Access SKU Discontinuation

Dear Valued Customer,

Teleflex is updating our Arrow™ Central Access product lines in the United States to support healthcare systems in complying with clinical practice guidelines, standardizing vascular access products, and ensuring a stable and consistent product supply. To better serve your needs and align with clinical best practices, we are streamlining our Arrow™ Central Venous Catheter (CVC), Multi-Lumen Access Catheter (MAC), Percutaneous Sheath Introducer (PSI), Large-Bore Central Venous Catheter (LB) and Acute Hemodialysis (AHD) kits.

SKUs listed in Table 1 will be discontinued over the next 6-12 months. While the typical discontinuation period is 6 months, Teleflex has extended this timeframe to up to 12 months to better support your transition planning. Clinical alternatives have been identified for all affected SKUs and are provided below.

After the 6-12 month discontinuation period or when stock is depleted, orders will be redirected to the best clinical alternative to meet your vascular access needs. A specific discontinuation date will be communicated by late 2025 after evaluating availability of materials and components to ensure consistent supply.

Table 1

Item Number Being Discontinued	Description	Product Category	Clinical Alternative 1	Clinical Alternative 2
CDC-42703-P1A	MULTILUMEN PI CVC KIT: 3L 7 FR X 16 CM AGB+	CVC	CDC-42703-XPCN1A	CDC-42703-XPN1A

To ensure a smooth transition in your CVC, MAC, PSI, LB and AHD inventory and clinical operations, we encourage you to contact your local Vascular Sales Representative today. Our team is ready to help you find the best solution to meet your clinical needs.

If you have any questions regarding this change, please contact Teleflex customer service for further assistance at 866.246.6990 or CS@teleflex.com, or your local representative for additional support.

Sincerely,

Cris Gomide
Vice President, Global Marketing – Vascular Access
