

When every drop counts, count on Renastep™

Great taste with Vanilla flavor

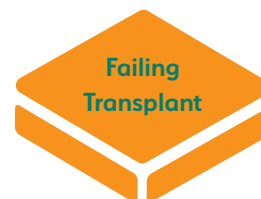

Suitable from 1 year of age

200 ml resealable bottle

- ◆ 2 kcal/ml
- ◆ 400 kcal
- ◆ 8 g protein

When **convenience**
& **simplicity** are
essential.

Ready-to-drink formula for the dietary
management of kidney disease.

What is Renastep? A blend of protein, carbohydrate, fat (including docosahexaenoic acid — DHA), vitamins and minerals for a diet restricted in potassium, chloride, phosphorus, calcium, and vitamin A. Supports the unique nutritional needs of individuals across the spectrum of kidney disease.

What makes Renastep different?

- ◆ Calorie-dense; appropriate for fluid restricted patients.
- ◆ Developed by renal experts to provide confidence that your patients are getting the right nutrition.
- ◆ Convenience & ease of use with resealable bottle.

Nutrient per 100 kcal	Renastep ¹	Suplena® with CARBSTEADY®	Nepro®	Kate Farms® Renal Support 1.8®	NOVA-SOURCE®
Protein (g)	2.0	2.5	4.5	4.4	4.6
Potassium (mg)	18	60	54	56	48
Chloride (mg)	30	50	48	38	40
Sodium (mg)	42	45	60	56	46
Phosphorus (mg)	15	40	41	47	42
