

March 28, 2025

Dear Valued Customer,

We are writing to provide an update on BP Cuff supply continuity. We understand the critical importance of supply continuity and are committed to providing transparent and proactive communications. We are providing this communication in alignment with our updates on [Baxter.com](https://www.baxter.com).

We are pleased to share that our highest volume cuffs, FlexiPort Standardization/RAW Soft are removed from allocation. We anticipate that the FlexiPort Fully-Configured cuffs, the only remaining cuffs on allocation, will be removed from allocation in mid-April.

We continue to make significant progress in our capacity expansion, including the installation of an additional blood pressure cuff machine in the U.S. which has been fully operational and shipping cuffs since March 14th. This will be followed by another U.S.-based production machine that we expect to be fully operational in late May. As previously communicated, these capital equipment investments and diversification of our manufacturing locations will bolster our supply agility going forward.

Current allocation guidance by category is listed below:

		Historical Allocation (Nov 18, 2025)	Historical Allocation (Feb 10, 2025)	Historical Allocation (March 10, 2025)	Current Allocation (March 31, 2025)	Anticipated Allocation (April 14, 2025)
Disposable	FlexiPort Standardization/RAW Soft	60%	85%	100%	Not on allocation	Not on allocation
	FlexiPort Fully-Configured Soft	20%	20%	20%	20%	Not on allocation
	Trimline Soft	80%	Not on allocation	Not on allocation	Not on allocation	Not on allocation
	FlexiPort Standardization/RAW Vinyl	60%	85%	100%	Not on allocation	Not on allocation
	FlexiPort Fully-Configured Vinyl	20%	20%	20%	20%	Not on allocation
	Trimline Vinyl	80%	Not on allocation	Not on allocation	Not on allocation	Not on allocation
	Neonatal Soft	100%	Not on allocation	Not on allocation	Not on allocation	Not on allocation
	Neonatal Vinyl	100%	Not on allocation	Not on allocation	Not on allocation	Not on allocation
Reusable	FlexiPort Standardization/RAW Reusable	90%	Not on allocation	Not on allocation	Not on allocation	Not on allocation
	FlexiPort Fully-Configured Reusable	100%	Not on allocation	Not on allocation	Not on allocation	Not on allocation
	Trimline Reusable	100%	Not on allocation	Not on allocation	Not on allocation	Not on allocation
	Two-Piece Reusable	100%	Not on allocation	Not on allocation	Not on allocation	Not on allocation

Thank you again for your continued patience and understanding as we navigate this situation.

Should your team need additional information on cleaning and disinfecting, please route those questions to HST_Medinfo@baxter.com.

Sincerely,

Your Baxter Representative
