Healthmark Industries introduces XEN Cleaning Chemistries to its portfolio

XEN Cleaning Chemistries

Healthmark Industries, a Getinge company, is delighted to introduce XEN Cleaning Chemistries to its product portfolio. XEN is Getinge's new and improved range of cleaning chemistries that provide ultimate peace of mind. With perfectly balanced formulas, XEN streamlines sterile processing workflows. Delivering more with less, XEN's concentrated formulas can achieve up to 10 times the cycles per bottle compared to equivalent products.

Comprehensively covering the full healthcare cleaning and decontamination cycle, XEN reduces stress in your SPD. There's quality in every drop, as the entire range is chemically engineered to care for SPD equipment, extend instrument lifetimes, limit environmental impact, and protect staff and patients.
